The Current Economics (CE) newsletter assists students and teachers in keeping up to date with current trends, issues and government policies in the Australian and global economies.

Current Economics features articles on key topics in Australian secondary economics courses, written and edited by Tim Riley. Current Economics also includes economic statistics and budget forecasts; analysis of trends in the Australian economy; government policies; and briefs on selected economic issues.

Some of the topics covered during 2016 include:

- The Global Economic Outlook in 2016
- Australia’s Economic Prospects in 2016
- Challenges in China’s Future Economic Development
- Recent Trends in Australia’s International Trade
- The Effects of Movements in Australia’s Exchange Rate
- Fiscal Policy and the 2016-17 Federal Budget
- The Reserve Bank’s Conduct of Monetary Policy
- Recent Trends in the Labour Market and Unemployment
- The Distribution of Household Income and Wealth
- Microeconomic Reform and Productivity Growth
- Global Economic Development and the World Bank
- Taxation Reform in the Australian Economy
- Competition Policy and Economic Performance
